

Environmental Management Policy Statement

Approved by: Founder and Chief Executive Officer | Version 1.0

FELCHRIS CONSTRUCTION AND ENGINEERING CO. LTD is committed to carrying out its construction, engineering, property development, and real estate activities in an environmentally responsible manner.

We recognize that construction activities can affect land, water, air quality, drainage, vegetation, neighbouring properties, and surrounding communities. We therefore aim to manage our work in a way that reduces avoidable environmental harm and supports responsible development.

Our environmental commitments are to:

- Comply with applicable environmental laws, permits, client requirements, and local authority conditions.
- Manage waste responsibly and avoid uncontrolled disposal of construction debris.
- Reduce unnecessary dust, noise, smoke, and nuisance to neighbouring communities as far as reasonably practicable.
- Protect drainage paths, water bodies, and surrounding properties from avoidable contamination or obstruction.
- Store materials, fuel, chemicals, and waste in a responsible manner.
- Encourage efficient use of water, energy, materials, and other resources.
- Promote good site housekeeping and proper disposal of waste.
- Respond promptly to environmental concerns raised by clients, neighbours, authorities, or project stakeholders.
- Include environmental considerations in project planning and site supervision.

FELCHRIS CONSTRUCTION AND ENGINEERING CO. LTD believes that responsible construction should create value without unnecessary damage to the environment or surrounding communities.

This document forms part of the FELCHRIS CONSTRUCTION AND ENGINEERING CO. LTD Website Policy Statements Pack. Project-specific requirements may differ depending on client instructions, contract conditions, site conditions, laws, permits, consultants' requirements, and regulatory expectations. This policy may be updated from time to time.
